With the latest technology in fabric, Meridy's is proud to offer a new line of uniforms that can resist the stains and spills that challenge the Food Service Industry on a daily basis.

Nano-Tex Fabric provides breakthrough spill resistance by fundamentally transforming each fiber via nanotechnology. The result is a fabric that:

- Repels liquids
- Outperforms conventional fabric treatments
- Provides long lasting protection
- Extends the life of the fabric
- Retains fabric's natural softness
- Allows fabric to breathe naturally
